

August 2018

Announcing the future direction of Sawyer Nursery's Perennial Plugs and Liner sales to Growers.

After analyzing the future of the plug and liner business segment for Sawyer Nursery, we have decided to discontinue growing perennial plugs for sales to the grower market at the end of the 2018 planting season. This decision also affects our business of brokering bareroot perennials as well. Going forward Sawyer Nursery will focus our facilities on our core business of growing finished container perennials for sales to retailers.

Sawyer Nursery is grateful for the perennial plug and liner business that we have shared with you over the years. We will continue to offer our support and existing plug availability through the Fall of 2018 and welcome your orders as we conclude the year. No additional plug sales inventory will be grown or offered for the future, beginning in Spring 2019.

Meanwhile, we will review all 2019 orders already received and discuss with you how best to approach this change with you.

If you have questions and we can provide additional assistance, please call or Email either:

Jerry Rice (616) 514-3501 Email: jrice@sawernursery.com

Rachel Regnerus (616) 669-9094 ext 212 Email: rregnerus@sawyernursery.com

Rich Brolick (616) 514-3506 Email: rbrolick@gmail.com

Thank you for your support during this transition.

Richard H. Brolick

Chairman
